December 15, 2008

Doral Venezia; Design Award Winner for 2009

Grand-Mere, Quebec – Doral International Inc., the largest Canadian manufacturer of Sport Yachts and Express Cruisers is honoured to receive this outstanding recognition for its Venezia.

The Venezia was launched in 2008 as the "next generation" of the Doral family of luxury cruisers. Featuring many of the wants and needs of a North American boater with a European flair in style and design. The Venezia boasts a 9'4" beam allowing for a roomier more stable express cruiser than any other cruiser in its class.

We would also like to thank you for pushing the envelope for boat design. It is this kind of vision and risk-taking that the Trailer Boats Excellence in Design Awards program is intended to recognize. Your achievement is exemplary, and soon our avid readers and web visitors will know that. stated Ron Eldridge, Editor Trailer Boats Magazine.

The official award will be presented during the Miami International Boat Show in February of 2009.
